

## a name you can trust

Generators - Pressure washers - Pumps - Plate compactors - Engines

leaflet SPSL8000

### 7 KVA Silent Diesel Generator

for handy man/ small contractor and emergency stand by power for domestic use only

#### FEATURES

- The air cooled diesel engine with advantage of simple compact construction and light weight does not have the problems associated with water cooled engines such as water leaks freezing etc which lead to overheating. Maintenance is also simplified.
- The air cooled diesel engine is able to perform well in temperatures from minus 40 to up to 50 degrees centigrade.
- Fuel consumption of air cooled diesel engines is up to 16% less than the water cooled engines and also gives lower pollution and less harmful emissions.

Model SPSL8000	Technical Features		
<b>ENGINE</b>	Villiers		
Model	F440 Diesel		
Type	Single cylinder, vertical, 4-stroke, air-cooled, direct injection diesel		
Continuous Output	8.8 (hp) 3000 rmp	Max Output	9.6 (hp) 3000 rmp
Starting system	Electric start	Cooling system	Forced air
Governor system	Centrifugal weight system	Fuel	Diesel
Fuel tank capacity	16.5 ltrs	Lub. oil capacity	1.5 ltr
Continuous working time	8 hours	Starting battery	12 v
<b>ALTERNATOR</b>			
Alternator type	Single phase, synchronous alternator		
Frequency	50 HZ at 3000 rpm		
Voltage	240 v		
Rated AC Output	6.2 (kw) / 7 KVA	Amprs	25
Sine wave pattern	7% distortion only	Power factor	0.8
Noise level	76 dba at 4 mts		
Power outlets	2 x 240		
<b>DIMENSIONS AND WEIGHT</b>			
length x width x height	870 x 580 x 765		
Weight	170 kg
