

SMALL FARM SERVICES

Ph: 0488 194 917 - E: mathew@smallfarmservices.net.au

Small Farm Services offers remote start and stop capabilities for roof top sprinkler systems.

Having this system gives you peace of mind while away from your home/property and a bushfire becomes a threat towards your assets.

Able to remotely start and stop using your mobile phone from anywhere in the world, while giving you detailed information on the pump status.

Capabilities and features

- ✓ Start and stop the system as many times as you wish.
- ✓ Receive detailed information about the pump status.
- ✓ RF capabilities allows the installation of an emergency start button for simple evacuation of your property.
- ✓ Wireless heat detector sensors, allowing the system to start autonomously when heat from a fire is detected.
- ✓ WIFI ability to start/stop the system via an app to give you control even during 4G outages.
- ✓ All installed systems using copper tube that meets Australian standards.
